

**THE INTERNATIONAL
CRITICAL CONTROL ROOMS
ALLIANCE CONGRESS**

Speaker Opportunities

5th - 7th December 2023

Brussels

Version 1

INTERNATIONAL CRITICAL
CONTROL ROOMS
ALLIANCE

About ICCRA

Formed in 2017, the International Critical Control Rooms Alliance (ICCRA) brings together critical control room professionals in order to help deliver excellent mission critical services.

We provide members with the opportunity to network and learn, providing environments for international collaboration and discussion, and influencing the wider critical control room stakeholder community. This is important to ensure mission critical services constantly adapt to the many changing factors affecting them in order to deliver consistently high service in the most cost effective manner.

Participation in the Alliance is open to any person or organisation engaged in the provision or support of a critical control room service, across all sectors.

The International Critical Control Rooms Alliance (ICCRA) connects professionals and coordinates discussion through its themes:

- Operations
- Technology
- Environment and Ergonomics
- People and Performance

Like many organisations the pandemic meant we had to adapt. Our 2020 congress, due to take place in Brussels, was delivered fully online, and we have been hosting a webinar series over the last couple of years. We are very pleased to announce our first in person congress for three years.

We will be welcoming delegates to an exciting and thought provoking agenda 5th to 7th December 2023 in Brussels. This pack provides information on speaking opportunities.

We hope that you will join us in making the 2023 Congress a massive success.

What to expect in 2023

The ICCRA Congress is the go-to forum for those working in, supporting, and supplying critical control rooms across all sectors. Our first in person event since coming out of the pandemic, this year's congress will provide an intimate setting to network, share experiences, and discover more about the latest control room developments.

- An exclusive control room site visit
- Central Brussels location
- Packed agenda focused on our 4 themes:
 - Operations
 - Technology
 - Environment and Ergonomics
 - People and Performance
- Evening Drinks Reception
- Extensive networking opportunities

2023 Theme

Doing Digital: Coping with the continual rise of data

Agenda Summary

5th December: Control room site visit

6th December: Conference, exhibition, drinks reception

7th December: Conference, exhibition

Speaker Opportunities

The ICCRA Congress prides itself on presenting a diverse range of speakers from across the critical control rooms industry.

This year's theme is **Doing Digital: Coping with the continual rise of data**. We are seeking speakers the end-user and supplier communities across our four themes:

- Operations
- Technology
- Environment and Ergonomics
- People and Performance

Speaking slots are 30 minutes (25 minutes presentation, 5 minutes Q&A). We are particularly interested in user-oriented case studies.

If you would like to propose a presentation, please email chris.dreyfus-Gibson@iccraonline.com by 8th April 2023 with the presentation title and a brief outline. We will aim to finalise the agenda by 22nd April.
